REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: the combination of elements as claimed is deemed to be directed to an unobvious improvement over the prior art as shown by Frazer et al and Swoager. Frazer et al discloses a hydraulic drive system (e.g. fig 3) comprising a hydrostatic pump-motor unit (41) having a first port communicating with a high pressure accumulator (42) through a mode valve (43) and a second port communicating with a low pressure accumulator (46) through a filter circuit; wherein the filter circuit includes a relatively unrestricted first flow path (through valve 49, which is reversed in direction, see paragraph 68, next to last sentence) from the low pressure accumulator to the second port and a second flow path (through valve 50, which is reversed in direction, see paragraph 68, next to last sentence) from the second port to the low pressure accumulator through a filter (47).

Swoager teaches that a filter circuit, which includes a relatively unrestricted first flow path (64, through 66) and a second flow path, in a flow direction (due to 62) opposite to the direction of flow for the first path, through a filter (58); that the second path includes a second path portion (68) having a pressure relief valve (70), parallel to the filter for the purpose of preventing collapse of the filter (column 5 line 7-9). Therefore it would have been obvious to one of ordinary skill in the hydraulic drive art to add a second path portion with a pressure relief valve parallel to the filter, for the purpose of preventing collapse of the filter.

This improvement comprises a filter shut-off valve in series with the filter and a restriction in the second path portion.

Note that even though the limitation of claim 1 includes a "controlled flow restriction" (line 25-26), it must be a fixed flow restriction, since that is what the specification calls it (e.g. page 19 line 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, preferably **accompanies** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
